Twice a week in hot spells

SOIL & FEEDING
Rich, well-drained soil
Feed in spring and after harvest

HARVEST
About Dec
Pick when deep orange

Planting your tree

1. Water the tree in its bag well an hour before planting.
2. Dig a hole 60 cm wide and deep, and mix compost into the soil.
3. Plant at the same depth, firm the soil and water in with 20 litres.
4. Prune each winter to an open vase shape for sun and airflow.
